Raised timber platform beneath the clock tower creates a stage area for public events and cafe seating on a regular basis.

Central feature of random natural stone paving creates a 'tessellated pavement' effect. Variations in step height integrate a water feature between them referencing the traditional french village town centre water well.

Random rock paving band provides a visual connection between and provides a visual connection to water feature and rill.

Concrete raised planter with timber seating edge adjacent to Medical Centre entrance.

Sloping lawn angled north to sun and provides informal seating areas for visitors and workers.

Threshold treatment to road pavement at intersection.

Water rill along the edge of the main pedestrian access from the car park.

Cafe seating areas adjacent to park and apartment building.

Playground including coloured rubber mounding, tunnel wall and slide, shelter steel play elements and coloured stepper.

St Germain Village Square
St Germain - Thompsons Rd, Clyde North
Acer platanoides 'Crimson Sentry' (Crimson Maple)

Sloped lawn with 600mm concrete seating edge

Shopping centre entry

Raise timber platform adjacent to clock tower providing seating edge

Mounded lawn with seating

Playground including tunnel wall with slide, play structure, sculptural elements and stepper

Townhouse mews. Granite sett paving with tree planting and garden beds

Main Street tree Platanus x acerifolia (Plane Tree)

Entrance to St Germain Medical Centre
