Dear Sir/ Madam,

Toomuc Landcare cannot endorse more emphatically the submission made on this matter by Cannibal Creek Landcare. The environment in this area is under huge stress because of the rapid extension of housing to the East of Melbourne.

Kindly note just one more point. The Wildlife shelters in this area have seen a great increase in injured native animals. Quite simply, the displaced animals - kangaroos most noticeably - do not know where to go. They must have a Wildlife corridor to even stand a chance.

It cannot be beyond the planners ingenuity to build in the necessary safeguards.

Yours sincerely,
