RE: Pakenham East PSP (Amendment C234)

To The Victorian Planning Authority,

I am writing this letter to submit a request in regards to the amendment of the Pakenham East PSP (Amendment C234).

We are located at [REDACTED] which is home to olive trees and a vineyard. As we are situated across the road from the planned infrastructure, I am concerned about the amount of congestion that will occur on Mount Ararat South Road. As it is a no through road I am concerned that the new homes and roads will cause a lot of congestion as well as pollution and noise.

I also want to stress my concern about the roads and don't want any new roads that connect onto Mount Ararat South Road especially any situated close to the entrance of our driveway, this will cause further disruption as the lights of cars will continuously flash into our bedrooms.

Thank you for your consideration.
