

**Objection to proposed development plan- Pakenham east (C234)**

We, members who are directly impacted of this proposed development respectfully object all plans associated with it on the following basis;

As residents of this low-residential zone, we strongly foresee this proposed plan as one that is not only flawed in many aspects, but undermines the existing peace and tranquility that ALL residents fell in love with when deciding to move here.

Considering that the north end of Ryan Rd is the only existing way in and out of this secluded area, the significant increase of traffic estimated as a result of this proposed plan (6.5 times more) which will be due to people using the Ryan rd only for short cut purposes, will contribute to problems for new and current residents getting in and out of our area to do necessary things such as going to school, going to work and many other things that are required.

Not only does this proposed plan significantly impact residents and their lives negatively, but it completely and cold-heartedly takes away the peace we paid for.

Keep in mind, many new residents of the Ryan rd and pine hill area have greatly been unaware of the size, spread and impact of this development and how much it truly strips away the existing peace we love.

This stripping of peace and right to privacy will not only impact the people, but as well as the animals that currently live here as well. As a household that is in possession of 3 animals, we have found it difficult to find a secluded and environmentally friendly area suited to keep our pets happy, and we can only begin to imagine the amount of unrest this proposed plan will have on many other residents within the area who have much higher maintenance animals such as sheep, horses, chickens, cows and more, as it will cause an influx of stress on these animals, not to mention the wild rabbits, foxes and birds that contribute to a peaceful country living.

For these reasons and many more, we hope that our thoughts contribute to a positive decision in deciding not to go further with this plan, and we thank you for taking the time to hear our voices.

Kind regards
