Objection to Proposed Development Plan - Pakenham East (C234)

My wife and I are appalled at the current 'proposed plan' and must object strenuously to it's implication and application to our area.

1) No proper consultation with residents with sufficient time to respond, shows complete lack of respect or regard to the people you are supposed to be looking out for.

2) You are taking a quiet 'leafy area' and destroying not only it's value, but it's tranquillity and wildlife with little to no regard to the effect it will have when you open up Ryan Rd to the traffic flows you so ineptly suggest.

3) You have taken from us the right to plan for our families future by having Council put stringent demands on what we can and can't do on our block when we built here not less than 3 years ago, and now decide you want to change the rules, in so doing you are planning to throw every thing that we worked so hard for down the toilet, if you had have posted your intention to stuff up this area in the beginning we would most definitely have built somewhere else, in this you show a complete disregard for your own initial plans to accommodate 'Big Business'

I suppose it's easy to bend to the demands of the wealthy and throw out all the values you say your trying to protect.

It would have been so easy to develop the east side of Ryan Rd into half acre lots and close it off the mainstream traffic, thus keeping it true to 'Your Values' of low density, without compromising either the developer or current residents.

Really! Is this our tax dollars at work? Brainless and disgusting is what this is.

Sincerely yours,
