

CARDINIA SHIRE

**AMENDMENT NUMBER C234**

To Whom It May Concern,

As a resident of  my wife and I purchased our dream home after years of looking and we only settled our property 16 months ago. This place is quiet, tranquil and the life style suits us and our family.

We don't object to future development **BUT** would like to see Urban Development and **NOT** High Density Living. We were not notified adequately about this proposal and it was not even in our section 32's or contract when we purchased our house about any proposal for another estate or development in our area that would affect us in some way.

We are concerned about the High Level of population and traffic and will have an enormous impact on Ryan Road/Pinehill Drive and it won't be a positive impact. Please consider all the aspects and listen to the community and our concerns as we don't object to development but we do object if it is done in a Negative high density living way which can bring more crime, traffic and downgrading the lifestyles Residents have created in our area. It is a Peaceful and content area and we don't want that destroyed.

Please consider all our concerns, it will be appreciated.

Yours faithfully
