Alix Rhodes
Executive Director Outer Melbourne
Victorian Planning Authority
c/- Amendment C201
Level 25, 35 Collins Street
MELBOURNE 3000

Dear Ms Rhodes, *Alix*

TFV SUBMISSION – EXHIBITION OF AMENDMENT C201 TO THE MELTON PLANNING SCHEME, (MT ATKINSON & TARNEIT PLAINS INFRASTRUCTURE CONTRIBUTIONS PLAN)

Thank you for the opportunity to reply to the amendment to C201 of the Melton Planning Scheme.

Transport for Victoria (TfV), as the responsible agency for the coordination, management and planning of our transport system, recognise the importance of working with the Victorian Planning Authority (VPA) and Melton Council to ensure that the Melton Planning Scheme continues to foster communities that are well connected and a transport system that supports the prosperity and liveability of the municipality.

TfV understands that the amendment is required to apply the necessary planning controls to implement the Infrastructure Contributions Plan, which will provide a clear structure of contributions required to fund transport and community infrastructure within the Mt Atkinson & Tarneit Plains Precinct Structure Plans.

TfV has reviewed the supporting documents related to the proposed Amendment C201 and has no objection to the proposal. TfV however wish to clarify that the State cannot guarantee to deliver the ultimate cross section for Hopkins Road for the crossing of the Western Freeway and the Ballarat Train Line. Any development of the Hopkins Road intersection IT01 and IT02 would be expected to tie into the existing Hopkins Road.

We appreciate the opportunity to engage in this process. If you have any questions, please contact [redacted]

Yours sincerely
