Over the last few years so many new estates have been approved. All through Greenvale, North Craigieburn, Mickleham, Merrifield, Kalkallo, Donnybrook, Woodstock, Epping North, Wollert, Bevrige, and more.. New roads like E6 are referred to but may never be built. Roads are identified to be duplicated yet they are left as single lanes for years. The Hume Fwy inbound in the mornings is at capacity. If there is an accident there are no other options and it can add 45 minutes to a commute. Mickleham Road cannot handle more traffic just read the local paper about parents not being able to access Aitken College to collect their children due to traffic. Please don't rely on existing roads to carry new traffic like what has happened with Donnybrook Rd. Donnybrook Train station is V line. Cars are parked on the side streets due to new population growth. People are walking kilometres on the side of a road to get to a train station with no footpaths. Build the E6 add lanes to Mickleham Road and Hume Fwy start upgrade now so it will be done in 5 years. Don't wait 5 years the roads can't cope. Victoria is so congested it's becoming impossible to get to work on time no matter how much extra time you allow as it is..
