

Mr Alix Rhodes
Executive Director Outer Melbourne
Victoria Planning Authority
Level 25, 35 Collins Street
MELBOURNE VIC 3000

Dear Mr Rhodes

Amendment C243hume to the Hume Planning Scheme – Sunbury South and Lancefield Road Infrastructure Contributions Plan (ICP)

Thank you for your letter dated 3 April 2020 allowing Major Road Projects Victoria (MRPV) to review and comment on Amendment C243hume to the Hume Planning Scheme – Sunbury South and Lancefield Road Infrastructure Contributions Plan.

This contribution plan interfaces with the Sunbury Road Upgrade which is part of the Victorian Government's commitment to improve 12 roads in the northern and south eastern outer suburbs by the end of 2025.

As part of the project extra lanes will be added on Sunbury Road between Powlett Street and Bulla-Diggers Rest Road. The works also include new traffic lights, shared user paths, bridge works and safety barriers. The project aims to improve traffic flow, safety, and connect existing and emerging communities with new walking and cycling paths.

The project is currently in the tender phase and awaiting contract award. After contract award the detailed design phase will commence and we'll inform Council and VPA of the detailed construction timeframes once they are known.

MRPV provided two comments on Amendment C243hume via an email sent to Hugh Stanford, Senior Strategic Planner VPA on 6 May 2020 and they are listed below as our formal submission on Amendment C243hume.

1. VPA Drawing 2113308A-CIV-1102 shows a through lane heading from Lancefield Road into the newly proposed development that has not been included in VPA contribution calculation. MRPV reference design does not allow for this through lane as part of our current tender process (refer to **Attachment 1** Drawing CIV-2014 Sheet No. 14). Therefore, the through lane as shown on VPA drawing would need to be built by others and tie into MRPV design.
2. VPA Drawing 211308A-CIV-1103 & 1104 shows a wide median (approx. 10m). MRPV commitment at this location is to provide 2.2m median south of Lancefield Road (refer to **Attachment 1** Drawing CIV-2012 Sheets No.10 to No. 13). Therefore, the wide median as shown on VPA drawings would need to be built by others and tie into MRPV design on either end.

We look forward to your response and continuing to work together to deliver this important infrastructure for the community.

Should you have any queries regarding this matter, please contact Dian Witono on 0425 218 380.

Yours sincerely

Dipal Sorathia
Project Director – Northern Roads Upgrade
