**Subject:** Craigieburn west PSP objection  
**Date:** Wednesday, 18 November 2020 6:37:07 PM

---

I object to any work commencing on the proposed Craigieburn west development until AFTER Craigieburn rd West, Somerton rd, Mickleham rd and Aitken Boulevard have all been duplicated. Craigieburn and Greenvale and surrounds have had enormous increases in traffic on those roads as a result of continuous frenzied construction of new houses. The roads are absolute choked at peak hours and school pick up hours. It is extremely frustrating for existing residents and impedes through traffic.

Craigieburn residents have had enough of unbridled new construction without road infrastructure upgrades. No more until the duplications can ease the pressure. Don't kid yourself that people are going to walk, cycle and take buses because that's not our experience in Craigieburn thus far. EVERYONE still uses cars and most houses have 2 or more cars. Streets are also too narrow because of cars parked both sides of the road and no action taken to stop truckers parking their trucks in residential streets.
