Write your submission

I am the principal of environmental consultancy [REDACTED]. [REDACTED]
[REDACTED] is one of my clients [REDACTED] has received
planning approval for a composting facility on farmland located at 607 Bannockburn-Shelford
Road, Bannockburn. [REDACTED] is proposing
to establish a composting depot on farmland located at 607 Bannockburn-Shelford Road,
Bannockburn. The composting system proposed for the site consists of blending selected
organic feedstock with size reduced green organics and a compost activator, forming the
blended material into piles and then allowing the activator to establish the required
microbiological regime to produce an AS4454 compliant pasteurised product. This is
achieved without the need to turn piles, thereby eliminating a major source of odour and
dust.

An [REDACTED] Works Approval Application is currently under consideration. The reason for lodging this submission is to bring the matter of incompatible development to your attention. The land on which the proposed facility will be sited is zoned farming and there is currently a buffer distance >2km from the towns of Bannockburn and Teesdale. It is essential that this buffer distance is maintained to protect the amenity of these towns and to enable the establishment of an activity that will support local primary producers

I confirm that I have read and agree to the above conditions for making a submission.

Yes
