

Have your say on the

Ballarat Station Southside Precinct Master Plan

The Victorian Planning Authority, in partnership with Ballarat City Council and other state government agencies, is creating the **Ballarat Station Southside Master Plan** to guide the redevelopment of the station's southern precinct into a new destination for Ballarat.

The master plan aims to:

- Protect and celebrate the rich heritage of the station precinct
- Guide the development of government land to the south of the beloved Ballarat Station
- Support the precinct as it becomes a commercial, civic and tourism destination
- Improve connectivity, accessibility and deliver a vibrant community space for residents and visitors to enjoy
- Attract investment, jobs and new commercial opportunities into the city

Get involved

Help us shape the vision for this new destination for Ballarat.
