Write your submission

Hi,

We oppose this development.

Such a high density development will add significant stress on the two main roads the Maroondah Hwy and Canterbury / Swansea Rd's serving the proposed areas. The railway stop, if it will be build ,will have little use due to the new Covid normal reduced traffic to / from Melbourne CBD. People living in this area prefer the semi rural, less dense traditional neighbourhood. Traditional residential development with less density would be preferred. The pit to be filled with groundwater friendly waste and green / forestry area should be developed in there.

I confirm that I have read and agree to the above conditions for making a submission.

Yes
