Subject: Lilydale Quarry Development Plan

Hi Lucy

I live on [REDACTED], I am concerned with Precinct 3 . Under the Plans there is only allowed a 10 metre buffer between the new estate and ours . Like most of the people who live in the Yarra Ranges we live here for the wild life and tree change , what will happen to all the vegetation, wildlife and birds that live in the current bush land there. The developers have made a complete mess of the first stage hundreds of trees have been cut down it really looks atrocious. The people who live here should be considered before the developers greed . I feel yourself and your committee should come and drive down Community Way and see what will be taken away from this area and will never be the same

Thank you
[REDACTED]
