I understand the initial opposition towards this proposal. However the vast disengaging carpark that surrounds the market is a waste of space, encourages antisocial behavior and visually does not represent the culture and identity of Preston to those who leave the railway station entrance. Urban heat is a large issue within the City of Darebin and it is important to recognize that this council declared a state of climate emergency in 2015. This submission would be successful with a moderate increase in medium density development and a radical increase in green space. The development should ensure the current and historic stalls are remained and protected, especially under strict rent controls that limit gentrification. Overall this plan looks incredible and does recognize that Preston will have to accommodate an increase in population no matter what, so why don't we try achieve this in the most beautiful way possible?

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice

Yes
