Page 13 of the Preston Market Structure Plan outlines proposals for "Walking, cycling and efficient parking & servicing". It VAGUELY states that "Public car parking will be maintained at existing levels....either underground or...within new buildings". This is NOT a plan on how to deal with parking problems. Currently Fridays and Saturdays, the existing parking is at capacity and with the influx of more people in the surrounding area the situation will only get worse. "Good bike paths ....bus services and the new Preston station will give people practical options to leave their car at home" are not a practical solution. I strongly believe that most of such people don't shop at weekends at the market. Shopping for a family involves making multiple purchases at different stalls and such volumes are unsuited for bicycles or public transport. Market redevelopments at both Prahran and South Melbourne have all provided increased parking spaces within or close by. I believe the revamped market proposed will fail without the clear provision of adequate car parking.

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice

Yes
