Write your submission

Dear VPA,

As this is a high density complex being developed in the heart of Preston where there is already significant traffic congestion, I am concerned about the increased traffic that it will bring to this area. In order to reduce the impacts on traffic congestion and increased environmental impacts, I would like the planning body to consider incorporating units in this development without car spaces. As it is close to public transport this should not effect demand for these units. Also I would like to see a supermarket available on the ground level of the of the complex to take the pressure off and to provide competition with the other local supermarkets which currently have very high patronage.

Kind Regards,

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice

Yes
