I'm writing this in opposition to the current plans for development

You should put communities first, not big developers.

I want to see:

Protects the market as an affordable, open-air fresh food market and vibrant, multicultural community hub.

Creates livable, medium-scale housing for the site and includes affordable housing for low income families.

Is a nation leading carbon neutral development, all-electric with fossil fuel free energy, solar

panels, battery storage and a microgrid.

Ensures waste reduction and reuse policies are implemented, and green bins are provided for households and commercial food composting.

Provides 18% green space in line with the green space needs identified by Council for the area.

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice

Yes
