Subject: Preston Market - Wind Effects of Structure Plan

Hello.

I have been made aware of the proposed structure plan for Preston Markets and have serious concerns with the proposed massing causing significant pedestrian wind impacts (potentially unsafe) in the surrounding streetscapes, particularly if the intention of the redevelopment is to create spaces for recreational activities, such as sitting and standing. I have reviewed the documents on the website and found there has been no consideration of the exposure to the strong and prevailing north and west sector wind directions in Melbourne.

Regards,
