### Write your submission

The proposed plans are inappropriate for the area. The VPA diagrams show 20 storey proposed on Murray Rd. The height of these buildings will stop sunlight to surrounding shops and residents, and the small portion of the market they're keeping. There is not enough housing demand for the significant amount of dwellings being built, meaning many will be left empty. This is not helpful to the local community. This is clearly being developer-driven over demand.

The market has so much cultural heritage and significance in our community. Before I lived in the area I would travel from other suburbs to do my shopping here. It is a wonderful and diverse space offering so much to our community. There is so much history in this space. To see this go is devastating. And to see this go because of developer greed is even harder. The VPA is saying they are protecting the market, yet only retaining 2 of the original sheds.

And surrounding them with high-rise buildings that will block light and airflow.

The market needs to keep it's current footprint. Its heritage should be respected. All heights of surrounding buildings to be capped at a sustainable level. Open space should be included within the design.

**I confirm that I have read and agree to the above conditions for making a submission.**

Yes

**I agree to the Collection Notice**

Yes
