I am surprised after so much community consultation how at odds this draft structure plan is with the previous feedback that was given.

I believe the footprint of the market should remain as it is; by all means, build around it as much as you like, connect it to Preston station and connect it to high St, I understand the great need for more housing in Victoria.

However, lumping massive developments on the site will negatively disrupt the very special open air community that has been a cultural meeting place for many decades. It is hard to describe the special feeling that you get walking through the markets each week and engaging with the community, it gives me hope for the future when I see so many different communities and cultures coming together to share in our similarities and learn more from

one another. This is what will be permanently changed and lost forever. Another dull inside shopping centre we don't need, we can go to Northland for that.

I would like to see exceptional architectural design and a higher level of focus on environmentally sustainable design. I would also like to see much more open space in the plans

As a home owner within a 2 minute walk to the markets I implore you to re-think these plans before you forever disrupt this well loved and needed community hub.

**I confirm that I have read and agree to the above conditions for making a submission.**
