The market should not be moved. It's the heart of Darebin.

We have so many young families now in the area from many different cultures. They all use the market.

I can't see that the cultural and heritage value is being protected.

There is not enough open space in the proposed plans

I don't see how the current traders are being protected.

There should not be any appartments built on the site.

There are plenty of high rise appartments built all around the market and they are an eyesore blocking out all the natural light.

Also constantly up for lease. So I can't see a shortage of housing.

The amount of broken unwanted furniture and white goods dumped are an environmental problem.

Also a cost to the local council to remove it.

This will all end up in what is left of the market car park.

In turn this will put people off coming to the market causing the traders to loose business.

Have we not leaned anything about shoving people into cramped housing?

It doesn't work we are moving people out of housing towers for that reason.

We don't want Preston to become a ghetto.

Why don't they spend the money on solar panels and reusable tank water and make the market greener. Set up recycling stations with an incentive.

I confirm that I have read and agree to the above conditions for making a submission.
