I shop at Preston Market every week and I strongly believe that the Preston Market redevelopment must retain as much of the current market as possible as well as retaining the culture and easy going atmosphere that locals currently enjoy. I believe that the redevelopment must protect the market as an affordable, open-air fresh food market and vibrant, multicultural community hub.

I do not support the building of a high rise apartment complex at the market site as this will lead to overcrowding and will overshadow the surrounding area. I support a development that creates livable, medium-scale housing for the site and includes affordable housing for low income single people and families.

Green space is at a premium as Darebin's population grows so this development must

provide a minimum of 18% green space in line with the green space needs identified by Council for the area.

Darebin is one of the most progressive LGA's in Australia and as such the development must meet high environmental standards. Examples of this are creating a nation leading carbon neutral development, all-electric with fossil fuel free energy, solar panels, battery storage and a microgrid. Further environmental considerations that should be required are the implementation of waste reduction and reuse policies and that green bins are provided for households and commercial food composting.

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice

Yes
