Making a submission Form Submission

There has been a submission of the form Making a submission through your Engage Victoria website.

Name

[REDACTED]

Postcode

3072

Email

[REDACTED]

Write your submission

Key points:

Increased car and commuter traffic on roads and already overcrowded trains.

Lack of open space in the design.

The developer is citing increased open space due to railway removal + a cash settlement as a way of getting out of providing the required and sustainable open spaces in their design.

Railway removal and subsequent creation of open space is a State Govt infrastructure byproduct, should not be used as a development design feature.

Lack of trees and greening.

Increased heat sink due to structure rooftops not being made into green spaces for development residents and workers.

Inappropriate density, size and shape of structures causing residential units to have no access to sunlight or natural daylight.

Not fitting in character and size of current area structures.

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice

Yes
