As a local who has been going to the Preston market since I was a child, I am unbelievably disappointed that the VPA and state government would seek to undertake such a major destruction of the market as it is. I'm yet to meet any local, trader or visitor to the market who is in favour of the proposed plans, and the currently elected local government is completely against the proposal as well. The current layout of the market allows for a fantastic sense of community and cultural diversity, which the proposed plans will lose. Overshadowing the market with a combined 81 stories of housing will cause traffic congestion that will make attending the site unattractive.

The Preston market is one of the big reasons I have stayed in the area that I grew up in, but this change would make me reconsider. That the VPA and state government has completely disregarded the united voice of their constituents is bewildering. I would hope the

overwhelming opposition to this proposal will inform the decision making, rather than what is best for property developers.

I confirm that I have read and agree to the above conditions for making a submission.
