Congratulations on the great work and the changes that have been made to the Arden Structure Plan through the process to date and the vision for the Arden Precinct it represents.

As an old North Melbourne resident and now CoM resident I am particularly keen on the open space and cultural assets that will be the centre of this plan.

There's clearly a major need for more open community space and amenity.

The strong focus on community sport, green space and strengthening the historical roots of football in North Melbourne is vital to creating a rich environment for families and young people to be outdoors and get involved in recreation & sport.

The opportunity to enhance the thriving NMFC which is supporting 2 men's and 2 women's teams into the future ensures a once in a lifetime opportunity to sustain something very special to the community. An aspect of the community that crosses so many boundaries and has been bringing people together for over 150 years!!- something our community needs. Something to be a part of, something to be proud of.

The retail and residential mix look like a huge win for people that live or visit the area. In fact I am thinking that I will want to move there before long. Linking the reserves with the new station, providing places to eat and drink will be a huge boost for people like me and my friends that visit often to watch teams play and train.

Good job – I look forward to visiting the precinct to watch it grow!
