The updated Arden Structure Plan is a vast improvement on the original. The new open spaces and sports facilities for community and team use is an excellent idea. The pandemic has shown us how important access to open space, exercise and sports facilities are for the community.

After being ignored in the original plan it is good to see that the NMFC is being involved in the development of the area of which it a key and historical tenant.

Further support for The Huddle to enable it to continue its work with the community should also be supported as much as possible.

The improvements on the original plan are to applauded. It would be a terrible shame if this just became another Docklands. Open space and sports facilities are a vital part of any healthy and vibrant community.

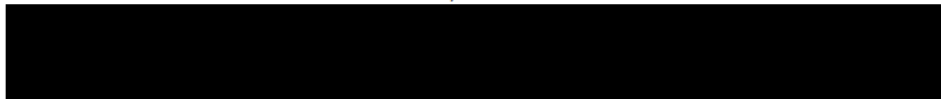

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice

Yes
