Kudos on planning for cycling and other forms of active transport. However, there are critical gaps that fall just outside the scope boundary of your study. Two perfect examples are the bridges that cross the Moonee Ponds Creek at Arden St and Macaulay Rd. Both are listed as strategic cycling corridors, but the connections between Arden and everything west of Arden are poor and unsafe. Consideration needs to be given to the quality of these links adjacent the study area, not just within.

**I confirm that I have read and agree to the above conditions for making a submission.**

Yes

**I agree to the Collection Notice**

Yes
