This submission is made on behalf of Energy Safe Victoria (ESV).

ESV is responsible for gas and pipeline infrastructure safety.

ESV has reviewed the draft Amendment C407 to the Melbourne Planning Scheme. It generally considers that the Special Use Zone 7 has adopted appropriate land use and development requirements within the measurement length of the gas pipeline infrastructure that traverses the precinct.

However, we observe that Industry is permissible within the measurement length. ESV has concerns that some Industry, particularly some Industrial uses where Clause 53.10 applies, could be inappropriate within the measurement length due to the significant safety risk in the event of pipeline failure.

ESV recommends that these uses be prohibited within the pipeline measurement length, or alternatively that these uses be added to the Schedule to Clause 66.06 to allow notice to be given to the pipeline operators for uses within Clause 53.10.

I confirm that I have read and agree to the above conditions for making a submission.
