This submission is not about how the quarry is being planned for, it is to request that the quarry not be built in Beveridge at all.

This is a high growth area, which is particularly evident in the Beveridge North West precinct plan showing future residential zoning. While there are currently many residents already living here who are opposed to the quarry, myself included, it will not be a nice area for new residents to want to move to.

The roads here are congested as it is, with housing estates expanding in the area. The roads have yet to be upgraded to cope with the current and future traffic, let alone trucks traveling around the proposed quarry. The freeway exit into Wallan is already heavily congested during peak hour, to the point where cars are often banked up on the freeway. Our local roads are crumbling and the council can't fix them fast enough before they collapse again. The infrastructure needs to be updated just to cater for all of the current and future residents as it is. This area is not built for heavy haulage.

Not to mention, many young families, like myself, bought land in this area so our children could grow up in a nice, quiet neighbourhood away from the hustle and bustle of city life. Now I'm expected to live with explosions every other day? This is not what I signed up for years ago. If it was, I never would have moved here.

If this quarry goes ahead, it will affect our country lifestyle, property values and our already dangerous and congested roads.

I confirm that I have read and agree to the above conditions for making a submission.
