I oppose the proposed quarry in the Beveridge North West PSP. This area is not a suitable location for a quarry. There are lots of residential houses and the single incoming and outgoing lanes to Wallan already get so busy, I can only imagine how busy it will be with large trucks going into the quarry many times per day. I personally work for a company who have a quarry on-site and the dust that comes from that quarry is quite heavy, especially on windy days, so I can only imagine that the dust flying through the surrounding areas of the proposed Beveridge quarry will be terrible. I live in Wallan and the area has a lot of young families and it would be a shame for a busy quarry to disrupt the peaceful environment that we currently have in our suburb. Quarry locations should not even be considered close by to residential areas, surely there are more remote areas that could be suitable for use.

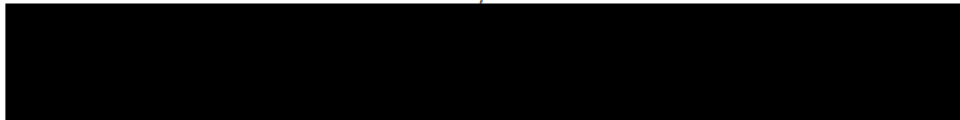

I confirm that I have read and agree to the above conditions for making a submission.
