Write your submission

My main concerns are the traffic that it will create in the area and the dust related diseases like silicosis that this will cause to the residents in the area. It's absolutely insane that they can contemplate building a quarry between 2 growing suburbs- Wallan and Beveridge. This issue has not received the attention it should have in the local media, since the owners of the quarry also own the local paper. This is going to have a very negative impact on the towns.

I confirm that I have read and agree to the above conditions for making a submission.

Yes

To whom it may concern I'm writing in regards to the planned quarry planned for Beveridge/wallan i do not wish to support this planned development as we have enough issues of traffic already causing major safety problems on the Northern hwy And surrounding roads as we only have 1 entry and exit to the hume freeway citybound we also don't want dust covering the towns of wallan and Beveridge and excessive noise pollution all day and night from blasting also causing damage to surrounding properties and harmful clouds of dust that may lead to long term diseases.

We have natural springs and creeks running around the area that is proposed for this development that will harm the natural biodiversity and conservation of the wallan environment for which or children will suffer in the long term

I confirm that I have read and agree to the above conditions for making a submission.
