Subject: Amendment C158 - Beveridge North West PSP

To all concerned,

I object to the plan proposed to the development of a quarry at 175 Northern Highway, Wallan. My valid objections of this plan as a concerned citizen and part of the Wallan community is this quarry would bring, traffic generation, hazardous materials - dust, noise and disturbance resulting from use, detrimental impact on neighboring amenity, vibrations, and congestion impacting health, wellbeing and liveability to our community and environment. This proposed area can be better used to shape and direct future growth and development for homes to build our community. Thank you.

Kind regards

T.Pare
