Subject: Amendment C158 - Beveridge North West PSP - a poor planning decision
Date: Sunday, 28 November 2021 11:44:12 AM

Dear Laurie, Peter, Samuel,

I oppose the construction of the quarry in Beveridge.

Having a quarry close to existing dwellings is a very poor planning decision - probably with state profits taking priority over the locals - that may have ramifications for nearby residents in terms of traffic, noise, dust and others.

And I would not believe a plan that addresses these issues on paper, Wallan is a windy place. I am sure Mitchell Shire is large enough to find another location - away from residents - for this project.

Regards. Hugo Correcher
