Nothing the Victorian Government and Authority bodies does surprises me anymore. I sold my property in Sunbury to remove my family from Toxic soil and bought land in Beveridge due to its peaceful nature and regional location. How wrong was I! Now I'm dealing with a Quarry of all things, I am considering selling once more to move away from all the environmental issues that will arise of having such construction near a home and young children. The fact that this has been considered is disgraceful, the Beveridge North West precinct is such a beautiful location and should be developed for housing, not industries, it is the doorway into Melbourne. I am sure there are plenty of other locations across Australia that can supply the materials the company is looking for, and I'm sure in areas that are not full of young families. Should I continue with building in this location, any future health or home related issues will be sent straight to the VPA!

Shame on you Victoria, once again!

I confirm that I have read and agree to the above conditions for making a submission.
