The proposed quarry cannot go ahead. Beveridge is already a built residential area, along with the newly built primary school , there was never any plan or mention of a quarry to be built so close.

Beveridge is known for its strong winds and the close proximity of the proposed location of the quarry to the primary school and residential areas is a big concern to public health.

We have already seen the debilitating effect of silicosis in stonemasons. The dust particles will be harmful for our young children and all residents. And I am totally against it going ahead .

**I confirm that I have read and agree to the above conditions for making a submission.**

Yes

**I agree to the Collection Notice**

Yes
