My husband, I and the community of wallan object to the proposed Wallan quarry which will affect us and locals health from particle pollution ██████████, noise pollution and add strain to the local traffic conditions for at least 30 years.

The proposed quarry is less than two kilometres from the southern edge of Wallan (including the Creative garden Early Learning Centre). Which i dont live very far from, just off taylers lane. One thing that is true about all rock quarries that do blasting and crushing, they create lots of noise, and lots and lots of dust. The frequent southerly winds we experience will be laden with lots of dangerous dust for the next 30+ years.

We worked really really hard to build our home and out of all the suburbs we chose Wallan to be our home.

We cant just sit and watch our homes and lives getting destroyed by the Quarry.

We want to keep Wallan as a great place to live and raise a healthy family, without the noise and dust and associated health impacts of daily rock blasting and continuous crushing. We don't want to see thousands more trucks from the proposed quarry using the Northern Highway. We want to save our link to Melbourne from having additional 800m long queues in peak hours thanks to the proposed new traffic lights which will give quarry trucks priority over commuters.

Its really started to effect me and my husband mentally just thinking about it all the time. I really don't want to sell our home and move from Wallan. Please help us to stop this our community need you to stand with us and to help us stop this.

Thank you

Diana and Dani Ishak
