My concerns are noise, dust, traffic, blasting and other impacts associated with the quarry which is now shown on your plan for Beveridge North West.

There is a lack of information about how the quarry will operate. Where is the connection to the Northern Highway which is already extremely congested and dangerous coming off the Hume. Adding more intersections to this stretch of road will only make this worse.

Emergency service and fire truck vehicles will impacted by delays.

Dust is a huge concern. It contains silica and there are childcare facilities proposed and existing within range from a wind perspective. Wallan experiences high winds as the name suggests, (Wallan Wallan is an indigenous name for wind).

As a resident I have no objection to quarries in the right location, outside a built up area.

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice
