Subject: Objection to Amendment-C158 Beverage North West PSP

Dear Sir,

I object strongly to having Quarry at 175 Northern Highway Wallan Victoria.

The noise, vibration and the dust will affect our health and well-being and make living in Wallan area very hazardous. The winds in Wallan and Beverage area, are very strong and a non wind day is rare. This will continuously fill the air full of dust particles. Those of us who have asthma and other health problems will be strongly, affected all the time.

The congestion with traffic is already bad and this will increase it beyond a joke. The fact that it is for at least 20 years will make value of properties fall greatly. Who wants to build with a quarry so close. For those who have already bought and built here will lose money if trying to sell now.

This quarry has already been denied by Mitchell Council many times and I agree with them that the quarry

shouldn't take place. It is not beneficial to any resident of either Areas. It is one thing to increase growth and prosperity in an area but making it at the expense of having a unhealthy Quarry to go with these plans is totally unacceptable.

Please take this objection very seriously on behalf of myself and my family whom live with me here in Wallan

Yours sincerely

Olwyn De Piazza
