To whom it may concern,

I am a resident of Wallan, and am opposed to the proposed quarry.

I do not wish to have the dust and particles that will be created from this quarry to affect myself, who is asthmatic, anyone I love or anyone else within the Wallan community. I have suffered from asthma since I was born, and dust particles and pollen affects me enough as it is, if this quarry goes in, not only would I have to look at moving, the traffic problem that would be worsened by the quarry would make mine and everyone's daily commutes in, out and through Wallan a more of a nightmare that in already is.

I hope that you make the right decision for the residents of Wallan and Beveridge by finding another area away from a residential community.

Regards,
Mitchell Gill
