Stop the quarry in Beveridge/Wallan

There are a lot of young families in this area and they have moved to an affordable regional area so that they can have some quality of life. Don't build the quarry near the residents as it will impact on their lives. It is always lower income families that have to live near health hazards and planning should look at another uninhabited area that will be suitable for a quarry. Dont go ahead with this - put yourself in our shoes when making the decision. You would object to this so close to your home

regards

Denise Perrett
Resident Beveridge
