As a resident of Mitchell Shire I oppose the proposed Quarry development in this area. I have substantial concerns which have not been adequately addressed in any of the information sessions that I have attended nor any of the information that has been released.

These concerns regard:

- 1) Noise pollution- we chose to build in this area due to the country feel. Although the area has developed substantially in that time it still remains a quiet and peaceful place to live. This will not be the case if there is a Quarry in the area
- 2) Increased traffic- traffic and road conditions in this area are atrocious as it is. Adding in large numbers of trucks travelling the poor quality roads without alternate plans made to divert local traffic is a recipe for disaster and unsafe.
- 3) Air pollution. As the parent of an asthmatic child I have significant concerns regarding the impact on his health
- 4) Reduced property value: House prices in the area have increased substantially since we moved here. A quarry in the area, with its increased noise, associated traffic and air pollution will have negative effects on home prices.

It should be noted that I am not against Quarries in general but I do oppose them being established in densely populated areas where they will have a negative impact on residents. I should also note that I am concerned at the amount of times this application has been denied and yet it still keeps coming back. The council and the locals do not want it.

**I confirm that I have read and agree to the above conditions for making a submission.**

Yes

**I agree to the Collection Notice**

Yes
