The proposed quarry is not the problem, it's the location of the proposed quarry, it's on a hill close to town, with southerly winds and south easterly winds the dust and noise would travel into town and wallara water which has a school my child attends which cops wind from that direction most of the time as it is, not to mention the new traffic lights that are required on the northern highway, as it is at the moment from 3pm to 6:30pm the traffic can be banked from town back onto the freeway, sometimes back to the beveridge on ramp, it's extremely dangerous, with traffic coming to a stop on the freeway trying to exit to wallan with other traffic still doing 110kms with little time to reach, these traffic lights would to the traffic banking onto the freeway and put into a dangerous situation, there is plenty of land away from the town and away from busy areas this proposed quarry could be moved too that wouldn't bother people but next to a town on an already congested main road is not the place for it

**I confirm that I have read and agree to the above conditions for making a submission.**

Yes

**I agree to the Collection Notice**

Yes
