Making a submission Form Submission

There has been a submission of the form Making a submission through your Engage Victoria website.

First name

Beau

Last name

Knowles

Postcode

Are you making this submission as:

An individual

Does your submission relate to an address within the Beveridge North West precinct?

No

Email

Write your submission

Wallan is congested enough with everything and everyone that has already been introduced in to the area. Building or allowing a quarry or anything of that magnitude to go ahead has literally no benefit of any kind to the town or the residents of Wallan or Beveridge, infact it would be more detrimental then a benefit as the increased traffic flow which as any local can tell you is already incredibly congested between the Wallan township and the Hume freeway not to mention the extra wear and tear on an already exhausted road surface. Aswell as a higher number of slow moving vehicles/ trucks holding up the already strained traffic flow and creating more accidents as a result of the unacceptable speeds and the hazard it presents to other road users that these truck drivers frequently drive to in general between the township and the Hume freeway without adding a quarry to the mix. Along with tonnes of debris and shrapnel dropped constantly from the trucks along with tonnes of mud especially in the wet weather and that's before you even consider the amount of dust created and the effects that would have on the air pollution of the Wallan township and the air which we as residents would be expected to breathe constantly not to mention the amount of homes that would not be able to open their windows or doors in the warmer weather as a result of all of this and yet these structures would still continue to build up with rediculas amounts of dirt and dust as a result of everything being blown up in the air as a combination of the quarry the trucks on and off the site aswell as the public road surfaces covered in the constant derby, dirt and mud left from these vehicles aswell as the residents vehicles which would be absolutely destroyed from constantly being expected to drive over all of this. Without going in to anything else I think the points I have mentioned alone just scratching the surface highlights how much of a disadvantage to our area this development would be imagine how many more disadvantages could be raised or found if you dig a little deeper, I believe it's a no brainer the evidence speaks for itself I vote NO to the quarry!!

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice

Yes
