

would travel into town and wallara waters.

My Child [REDACTED] is super windy and cops wind from that direction most of the time! Which makes the place already very dusty if not more dusty!

Not to mention the new traffic lights that are proposed because they are required on the northern highway to allow the trucks in and out of the quarry.

At the moment from 3pm to 6:30pm the traffic can be banked from town back onto the freeway, sometimes back to the Beveridge on ramp, which is extremely dangerous, with traffic coming to a stop on the freeway! trying to exit to Wallan with other traffic still doing 110kms with little time to react.

these proposed needed traffic lights would add to the already terrible traffic hazard and further causing cars banking onto the freeway and forcing drivers into a dangerous situation!

there is plenty of land away from the town and away from busy areas this proposed quarry could be moved too that wouldn't bother people

However next to a town on an already congested main road is not the place for it!!!

I confirm that I have read and agree to the above conditions for making a submission.
