As a resident in the [REDACTED] was deeply disturbed when I learnt a quarry was proposed between Beveridge and Wallan. I am concerned about the environmental impact and also the health impact this quarry will have on residents and surrounding estates. I have done research into quarries and I feel that if this get's approved then the local council and government are not looking out for the best interest of residents. We chose to build within Mitchell Shire as we liked the regional feel. Having the quarry will not only impact the tranquility of the area it also will cause a lot more traffic, pollution and noise to an already congested road way. The location of the quarry is right near housing estates and will decrease property value and structural integrity of properties. As there is only one way in and out of Wallan, increasing trucks on the road this will greatly effect traffic and road conditions.

Looking at the draft for the location of the quarry it is proposed to be right near a school and community facilities which will expose future generations to harmful dust. This already is evident with the location of the quarry in Beveridge and it's close proximity to Beveridge Primary school. The amount of dust that comes from the quarry is harmful to the children and teachers.

I strongly believe that this quarry is not in the best interest of the community and that it would be extremely selfish and a huge over sight by council and local government if it was to go a head.

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice

Yes
