Hi Sarah,

Hope you are well.

I just received the consultation document for the Officer South Employment Precinct proposal. I have a few questions I was hoping you may be able to answer, as they may directly impact me with this proposal.

1) Will the State Significant Industrial Precinct (SSIP) include large/tall facilities that protrude in height over the Princes Freeway sound barrier? I ask this as the facilities may be visible from my property if this is the case.

3) What facilities would be included in the State Significant Industrial Precinct (SSIP)? i.e. manufacturing, Office buildings, warehouses etc.

2) Will the State Significant Industrial Precinct (SSIP) include any manufacturing facilities that will contribute to residential noise pollution?

3) I notice on the Place Based Plan there is an arrow indicating a potential extension of Stephenson's Road over/across the Princes Freeway - Is this correct?

Appreciate your time reading this and appreciate your help with my questions during this process.

Thanks,
