1139971	[REDACTED]	I would like to write my submission	<p>Hi I would like to put in a formal request for a round table with you the VPA and Melbourne water. this is in relation to water flows in the gum scrub creek and the management of storm water. my family's property borders the psp on [REDACTED]</p> <p>[REDACTED] with the gum scrub running through our place. we have been farming here for 70 years and fully understand that we have a flood overlay on our place. however it has never been a problem till the start of developments the last 10 years and even more so in the last 5 years i have seen a very big decrees in animal health and grass health over the last few years that i directly contribute to a greater increase in flood events both in height and longer lasting and also poor water quality when it dose flood as a neighbour i have other concerns as well that i would like to chat about please note i attended the first public meeting and talked to Jake for a hour or so. and i will be there again on Wednesday and i am hoping Melbourne water will be there this time however as i said at the start i would like to request a round table asap Kind Regards [REDACTED]</p> <p>[REDACTED]</p>		17 Oct 23 11:11PM
