1141368	[REDACTED]	I would like to write my submission		<p>"Submission re Officer South Employment Precinct Structure Plan. We are writing this submission in regards to the property address, [REDACTED], Officer South as owners of this property. We did attend the community engagement session on 7th Oct and where informed that land owners had been contacted and were involved in discussions for this plan. This is the first planning advice we have received to date for this property. The planning structure currently states that there is to be a retarding basin covering our property, we feel that this is not the correct spot for this as we have worked on this property as well as [REDACTED] Officer</p>		<p><b>26 Oct 23</b> <b>9:07PM</b></p>

				<p>South Road for 25 years and the natural water flow indicates that this is not the ideal spot, again no one has been in contact with us the Land Owners to have any input or discussions in the planning process. Melbourne Water have been to test the grounds around us but not specifically at our property, where you are proposing the basin. As per the plan Melbourne Water have placed the other two retarding basins along the main gas line, whereas the basin on our property is well away from the gas line, we would like to know why this is. We have ourselves contacted Melbourne Water whom could not give us any answers as to why the basin is proposed on our property. In relation to zoning around us, can you please answer why</p>		
--	--	--	--	--	--	--

				there is a business zone south of us against the gas line. We do not see the point to this at all.
