1394632				I wholly support this expansion by the council to grow housing, the community and services. My only hesitation on this project, is the infrastructure, we currently have many other areas of the city which desperately require road and other upgrades years post development. And yet, we are to build another community without finishing the current ones which has created poor living conditions such as travel to and from work, public transportation growth issues, road connections, traffic mitigation and even lane stripping of roads. Shouldn't we finish the projects started, pushing for more federal and state funding on our current infrastructure requirements prior to building another, 5600 homes?		2025-09-22 04:30:52
